

When:

Tuesday 15th March 2016 5pm Start

What

5:00pm Introduction

Intro to IRSE WA chapter and RTSA WA chapter

5:15pm Presentation:

Design and Construction of the Stadium Rail Project

Simon Turner – Design Interface Manager, AECOM

Simon is a Chartered Professional Engineer with 13 years experience in design, design management and professional consulting across a variety of infrastructure projects, with a specialisation in the planning, design and construction of major transport projects. Simon has been a member of project teams delivering key rail projects in Western Australia including the New MetroRail City Project (Perth Underground), Perth Freight Terminal Redevelopment, North Quay Rail Terminal Stage 2, and the Midwest Rail Project.

Mike Broderick – Senior Project manager Signals, PTA

Mike Broderick has 13 years' experience with the Public Transport Authority (PTA). Mike worked initially as a signals engineer in New MetroRail project group. At the completion of the New MetroRail project, Mike joined the PTA Signals Maintenance group and managed day to day operational signalling issues and minor projects. In 2010 Mike moved to PTA Major Projects Unit as a Signals Project Manager. Mike is now managing the signalling works associated with the new Perth Stadium project.

6:15pm Networking Drinks

Opportunity to network with other IRSE WA members over some complimentary food and drinks.
